

ASCB AUTHORITY

The authority vested in Accreditation Service for Certifying Bodies LLC (ASCB) is that assigned to them by the client conformity assessment body and by the organisation in respect of the accreditation services contracted.

ASCB is proudly free of political interference and they provide their services without any encouragement, support, approval or licence from any other statutory or government office of any nation or state.

No claim as to statutory, legislative, authority, prominence or right given by any other party unless specified by ASCB is claimed.

ASCB accredited organisations supply services to local and national governments around the world. ASCB would advise all interested parties to verify the acceptability of any accreditation scheme with their clients.
