

Personnel Certification Body Fees

The aim of ASCB's fee policy is one of reasonable affordability for the certificate issuing body

The requirements of Personnel Certification Body guide ASL(G)74 are required to be met.

There are two fee options and either one may be selected at the discretion of the Personnel Certification Body.

It is possible to commence with Option 1 and transition to Option 2 at a later stage

Note: ISO 17024 is primarily intended for bespoke personnel schemes that require continual monitoring or CPD but can be applied to the basic provision of training. Training accreditation at a provider or individual course level is available via a separate ASCB proprietary accreditation scheme.

Option 1: Per registrant approach.

The fee is \$1400.00 per year plus \$70.00 per scheme or active course accredited. An additional fee is paid for each person registered in the certification scheme/course at the following rate:

Standard registrant: \$13.00 per year

Extended registration: \$26.00 minimum three years

Registrant fees are paid via the International Register of Quality Assessed Organizations www.irqao.com. Listing of all registrants at this website is a mandatory part of continued accreditation. Registrant photos can optionally be added.

Option 2: Whole Body approach

The fee is \$8400.00 per year. There is no application fee or per scheme fees. There is no limit to the number of schemes registered. This option includes up to 1,500 student registrations per year.

Registrant fees are set to free of charge at the International Register of Quality Assessed Organizations www.irqao.com. Listing of all registrants at this website is a mandatory part of continued accreditation. Registrant photos can optionally be added.

Note 1: Use of the ASCB and IRQAO Logos on certificates and training literature signifies agreement by the training institute that fees are due to ASCB in respect of the person certificated.
